

MUTUAL CONNECTION BETWEEN MACRANDERS / MARCRANDERS TODAY

(simplified representation)

An interesting question is: "How are all the today living Macranders/Marcranders actually related to each other?"

Today there are 6 different Macrande/Marcranders lineages, which all descent from 3 sons of Councilman/Mayor Philips Josias (Josias) Macrander (*1629-†1719) from Wetzlar, Germany. Josias Macrander had 13 children in total: 5 sons, 7 daughters and 1 unknown child. This common ancestor of the 6 different Macrander/Marcranders lineages is going ± 400 years backwards in time. Between the 2 North American and the Brazilian Macrander lineages there are just ± 200 years. Their common ancestor is Johannes Macrander (*1785-†1860) from Wetzlar.
